Work Experience

Production Support | PT Kasakata Kimia (AVIAN BRANDS) April 2025 - Present

- Actively participated in Continuous Improvement (CI) initiatives, identifying opportunities to enhance production and engineering processes for increased efficiency.
- Supported internal quality audits to ensure compliance with QMS standards, contributing to improved process consistency and operational efficiency
- Make Digital Transformation from paper to less paper andSupported production planning & scheduling to improve efficiency
- Reduce downtime at production (lab process downtime) 22% and Increase 89% Suggestion System from production by "one man one improvement" target.

Manager | Kita Laundry Nov 2024 - April 2025

- Led business operations, increasing efficiency by 20% through streamlined processes and workflow optimization, contributing to a 15% revenue growth.
- Developed a data-driven inventory control system, reducing material shortages by 40% and cutting procurement costs by 10%.
- Implemented a structured queuing system, reducing customer wait times by 35% and improving customer satisfaction ratings by 25%.

Staff Maintenance Planning Department | PT Pupuk Iskandar Muda June 2023

- Developed and scheduled preventive & corrective maintenance plans.
- Analyzed equipment performance to improve reliability.
- Managed spare parts inventory and maintenance resources using SAP modul.

Coordinator Assistant | Work System Design & Ergonomics Laboratory Feb 2024 - Nov 2024

- Designed and executed process improvement initiatives, increasing ergonomic efficiency by 25%.
- Managed lab operations and optimized resource allocation, enhancing operational effectiveness.
- Trained and mentored students in ergonomic design and efficiency principles, improving project success rates by 15%.

General Secretary | Himpunan Mahasiswa Teknik Industri (HMTI) Dec 2021 - Dec 2022

- Led organizational strategy and operational planning, implementing key initiatives that increased member engagement by 40% and streamlined administrative processes for improved efficiency.
- Implemented process improvements in administration, enhancing documentation accuracy and workflow efficiency.
- Redesigned recruitment strategies, growing membership by 25% through targeted outreach and engagement initiatives.

Head of Duta Pepelingasih Aceh Jul 2024 - May 2025

- Developed and led community-driven sustainability programs, positively impacting over 500 individuals.
- Executed large-scale environmental initiatives, increasing community participation by 30% and promoting eco-friendly practices.

Projects

- **JakJak.site – Web Developer (June-Dec 2024)** Created a decision support system (MCDM) utilizing the Elimination and Choice Expressing Reality method to enhance tourism decision-making in Aceh, resulting in increased accessibility to travel recommendations for tourists.
- **UMKM DUGA | Keripik Buah Naga** Conducted a business feasibility study as part of a practicum in business analysis and design, evaluating market potential, financial feasibility, and production planning for a small-scale food enterprise.
- **PT Cemara Abadi – Facility Layout & Investment Feasibility** Conducted a comprehensive facility layout design and investment feasibility analysis as part of a practicum in facility planning and business development. Developed an optimized factory layout to improve production flow, resource utilization, and space efficiency, while assessing financial feasibility to determine the viability of investment. Portfolio: [YouTube Video](#)
- **PT Sahabat Indah – Integrated Manufacturing System Analysis** Conducted an integrated manufacturing system analysis as part of a practicum combining Production System Engineering and Work System Design & Ergonomics Laboratories. Led an end-to-end production analysis, integrating forecasting, production planning, scheduling, line balancing, lean manufacturing, and ergonomic assessments to improve production efficiency and enhance workplace safety.

Additional Information

- Willing to relocate for assignments.
- Strong organizational and leadership background with experience in process optimization, financial analysis, and business strategy.
- Passionate about operations, production, logistics, planner, improvement, operational efficiency, and strategic decision-making in business environments.
